

## Category

## Content for product line

## Type

Theory and practice on RunFlat and UHP tyre technology and mounting, wheel balancing, vibration minimisation technologies and weight saving

### The course is designed for:

- ▶ Tyre technician with a minimum of experience
- ▶ Sector operators, technicians
- ▶ Car dealers also specialised in wheel change

## Language

## Duration

## Notes

Practice on RunFlat and UHP mounting/demounting is carried out on WDK (German certifying body) approved equipment and also includes the wheel sensor test procedure (compulsory on newly type-approved cars from 2012) with the special TPM-02 tool.

## Necessary preconditions

-----

## Course content

- ▶ General information on Run-Flat tyres
- ▶ General information on RunFlat and UHP technology
- ▶ Basics regarding tyre pressure measurement and sensors (TPMS)
- ▶ Approved procedures for correct demounting/mounting
- ▶ Practical exercises
- ▶ Wheel balancing basic theoretical principles
- ▶ Practical exercises also including:
  1. main accessories and clamping systems for correct wheel balancing
  2. use of Alu programs for wheels with alloy rims (hidden weight)
  3. possibility of removing imbalances using the new sonar check technologies and weight reduction programme
